CONDITIONS OF SALE

1. The breeder confirms that the reason/s for requiring sterilization of the puppy is explained to the buyer before transfer of ownership.

7. The buyer agrees to ensure that the puppy meets all of its vaccination requirements (as per the booklet supplied by the breeder) and agrees to be held responsible for all of these costs.
8. The buyer agrees to provide proof to the breeder annually via email, that the necessary vaccination requirements are being met yearly for the puppy.  16. The puppy has been microchipped with a Virbac microchip by the breeder's veterinarian, Rant en Dal Animal Hospital in Krugersdorp. The buyer has been provided with the microchipping form, which they are required to complete with their details and submit to Virbac to finalize the microchipping registration process.
